

Christina and Dave at Pure Innovations

Since 2005 Pure have sought 'secondments' to our Service from within the Companies that we have successful partnerships with. Two fantastic examples of this would be ...

Christina, who applied through the Golden Jubilee Trust Fund while working at John Lewis in Cheadle. She worked part-time as an Employment Officer for six months, and benefited from our in-house training, support and experiences of working to secure paid employment for our clients.

Dave was approached at Sainsbury's when he was a Bakery Manager, to become a Mentor for young people. He was funded to work with us on a project with the BBC for three months. The outcome of this is that he is now an extremely successful full time Employment Officer with Care Leavers, who incidentally still flies the flag for Sainsbury's, in that he secures paid employment in stores across Manchester.
